## Abstract

The 43<sup>st</sup> National Conference on Mechanical Engineering of CSME will be hosted by the National Chung Cheng University. It will be held in Chiayi County on December 4 and 5, 2026. To assist participants in preparing their manuscripts for the conference proceedings, this Word template is provided.

**Keywords:** A list of 2-4 keywords should be included right beneath the abstract.

## 1. Introduction

The length of each paper should 4~6 pages. Manuscripts submitted should strictly follow the format of this template. Only manuscripts in PDF format **with no page numbers** are acceptable and manuscripts should be submitted via the official website of the 43<sup>st</sup> National Conference of CSME, <https://csme2026.conf.tw/>. The size of the PDF file should be less than 10 MB.

## 2. Format

### 2.1 Paper Format

#### 2.1.1 Margin Setting

The paper size is A4 (21 cm by 29.7 cm) with the following margins: upper 3 cm, lower 3 cm, left 2 cm, and right 2 cm. These margin settings should be followed under all circumstances.

#### 2.1.2 Font Setting

The acceptable fonts are Times New Roman and Symbol. The title of the article should be in 14-point boldface type. Capitalize the first letter of nouns, pronouns, verbs, adjectives, and adverbs; do not capitalize articles, coordinate conjunctions, or prepositions (unless the title begins with such a word). Authors' names and affiliations are to be centered beneath the title and in 12-point non-boldface type. Subtitles should be in 11-point and boldface. Type your main text in 10-point. All paragraphs should be indented by 0.9 cm.

### 2.2 Keywords

A list of 2-4 keywords should be included right beneath the abstract.

## 3. Figures, Tables and Equations

Figures and tables can be either placed at the end of the paper as demonstrated in this template, or inserted within the running text.

### 3.1 Figures and Tables

Captions of figures and tables should be in 10-point Times New Roman. The alignment of the caption can be either centered or justified, depending on the width of the figure.

### 3.2 Equations

Equations should be centered aligned and numbered.

$$\frac{\partial^2 \varphi}{\partial x^2} + \frac{\partial^2 \varphi}{\partial y^2} + \frac{\partial^2 \varphi}{\partial z^2} = f(x, y, z) \quad (1)$$

## 4. References

List and number all bibliographical references at the end of your paper. When referenced in the text, enclose the citation number in square brackets. Formats are given below for your reference for journal paper [1], book [2], conference paper [3], thesis[4], and webpage [5].

## 5. Conclusions
